DIRECTOR'S NOTE

As rattan is taking more and more significant place in the modern world of furniture. We are encouraging the creativity of local rattan craftsman by increasing their variety in the creation.

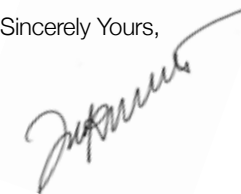

Indonesia is a country with the highest income in rattan as a natural raw material and it is very friendly for the environment. We have learnt as long as there are trees in the rain forest, rattan will continuously grow at a very fast pace.

By boosting the production of rattan furniture and products, we are supporting the local rattan manufacturers.

The results are pretty and long lasting.

That is why we choose rattan as an essential product of Sarinah Home.

Sincerely Yours,

Indyuwani Asikin Natanegara

Director of Trading & Property
